PROFESSIONAL SUMMARY

Third year BSc. Computer Science undergraduate with hands-on experience in AI/ML, full-stack web development, and cloud-based deployment. Built machine learning applications and React-based web platforms with real-time functionality. Strong understanding of data structures, OOP, REST APIs, and model deployment. Passionate about developing scalable, data-driven solutions.

EXPERIENCE

E Commerce Store Manager – **Amazon & Flipkart** Sep 2024 – Feb 2026
- Dedicated E-commerce Seller with hands-on experience managing Amazon and Flipkart storefronts.
- 100% positive store rating on Amazon and gold tier seller on Flipkart.
- Proficient in tools like Canva, Microsoft Excel, with knowledge of SEO optimization techniques.

Store Listing Manager & Computer Operator - **DailyDealsBazar** Nov 2022 – Jan 2025
- Experienced store listing manager & computer operator with a solid background in e-commerce operations.
- Managed store listings and backend operations on platforms like eBay for stores such as DailyDealsBazar.
- Hands on experience with SEO-optimized listings and product photography to enhance product visibility.

AI & Cloud Technology Intern – **IBM** July 2025 – Aug 2025
- Integrated AI models with cloud-based platforms for scalable deployment.
- Worked on storage management, deployment pipelines, and version control systems.
- Applied AI and cloud concepts to real-world business use cases.

AI & Machine Learning Intern – **IBM** June 2025 – July 2025
- Built end-to-end ML workflows including data preprocessing, feature engineering, model training, and evaluation.
- Implemented machine learning algorithms on structured datasets.
- Improved model accuracy through hyperparameter tuning and validation techniques.

Web Developer Intern – **TAMIZHAN SKILLS** June 2025 – July 2025
- Built and enhanced responsive web pages using modern web technologies.
- Assisted in developing front-end and basic back-end features.
- Participated in learning sessions and practical assignments.

PROJECTS

MINDFUL COMPANION (Hackathon Project)
- Developed an open-source web application focused on mental well-being.
- Integrated AI-powered features including mood tracking and interactive exercises.
- Built responsive UI with real-time interaction features.

EDUCATION

Bachelor of Science in Computer Science – Third Year (August *2023 - July 2027)*

SKILLS

Languages: Python, C++, JavaScript, SQL | **AI/ML:** ML, LLMs, AI Agents, Data Preprocessing, Random Forest
Concepts: Data Structure & Algorithms, OOPs, DBMS
Web: HTML, CSS, React.js, REST API | **Tools:** GitHub, VS Code, n8n, Firebase, Flask, MS Office, Canva
