RAJDHANI COLLEGE  
DELHI UNIVERSITY  
2023 – 2027

## SKILLS

**Programming Languages:** Python, HTML, CSS, JavaScript, C++

**Concepts:** DSA, AI, ML, AI Agents

**Tools:** Canva, GitHub, VS Code, Firebase

## SUMMARY

I am a B.Sc. Computer Science undergraduate from Delhi University, passionate about software development, AI, online content creation, and e-commerce management. I have developed skills in video editing, data analysis, front-end development, and programming with Python and C++. My ambition is to leverage my technical expertise and creativity to deliver impactful solutions in the tech industry.

## PROFESSIONAL EXPERIENCE

### STORE LISTING MANAGER & COMPUTER OPERATOR

NOV 2022 – JAN 2025

eBay

Experienced Store Listing Manager & Computer Operator with a strong background in managing e-commerce operations on platforms like eBay for stores such as DailyDealsBazar and Autokart. Skilled in listing product entries, handling inventory data, and maintaining sales and purchase records using Excel. Proficient in tools like Canva and MS Word, with hands-on experience in SEO-optimized listings and product photography. Successfully increased store sales by up to 50% through strategic listing enhancements and consistent performance improvements.

### E COMMERCE SELLER

SEP 2024 – PRESENT

Amazon & Flipkart

Dedicated E-commerce Seller with hands-on experience managing Amazon and Flipkart storefronts. Skilled in handling end-to-end operations including listings, inventory, pricing, order fulfillment, returns, RTO, and product photography. Proficient in tools like Canva, Excel, and SEO optimization techniques to enhance product visibility. Proven ability to set up and manage online stores from scratch with a focus on operational efficiency and customer satisfaction.

## PROJECTS

### PERSONAL PORTFOLIO WEBSITE

Designed and deployed a responsive personal portfolio website using HTML, CSS and JavaScript. Integrated smooth animations and a clean UI/UX to showcase experience, personal skills, projects and certifications.

GitHub – <https://kashif7230.github.io/Portfolio-website/>

### CREATION PORT

A custom-built, professional web development project showcasing your skills in front-end development. Designed responsively using HTML, CSS, and JavaScript, the *Creation Port* site enables users to explore, create, and present their own portfolios

GitHub – <https://kashif7230.github.io/creation-port/>

### SALARY PREDICTION

Developed a Flask-based machine learning application that predicts salaries using a Random Forest model. Implemented a complete training pipeline, built an interactive front-end with responsive design, and integrated model deployment for real-time predictions.
